

BDR-HT2

BDR-HT2

Features

- BDR-HT2 is a drive position tread for high torque applications.
- Ideal for both regional and long haul over the road service applications.
- BDR-HT2 is outstanding in demanding high-wear applications.
- A new design minimizes tread movement, improving wear.
- For radial tyres only.

Applications

LONG HAUL

Axle Position

DRIVE

Tyre Sizes

- 10.00R20
- 11.00R20
- 12.00R20
- 12R22.5
- 295/80R22.5
- 315/80R22.5
